

# Academic Search Complete™

Available via

## The World's Most Comprehensive, Scholarly Full-Text Database for Multidisciplinary Research

Designed for academic institutions, this database provides complete coverage of multidisciplinary, full-text academic journals. The capacity of content within this resource fully supports scholarly research in the key areas of academic study by providing peer-reviewed journals, full-text periodicals, reports, books, and much more.

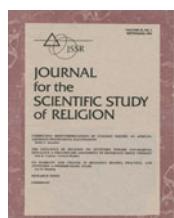

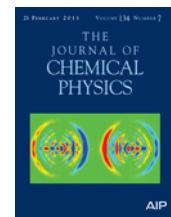

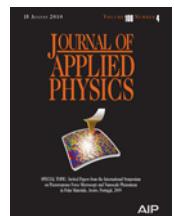

### The Largest Academic Database Available with the Most Full-Text Journals and Broad Depth of Coverage

*Academic Search Complete* offers an enormous collection of the most valuable full-text journals, providing users access to critical information from many sources unique to this database. In addition, this database is the leading source of peer-reviewed, full-text for STM research, as well as for the Social Sciences and Humanities. This scholarly collection offers unmatched coverage of information spanning a broad range of important areas of academic study, including anthropology, engineering, law, sciences and more.

### Content Includes:

- Over 13,690 indexed and abstracted journals
- Nearly 9,100 full-text journals
- Full text for more than 7,900 peer-reviewed journals
- PDF content dating back as far as 1887
- Searchable cited references provided for more than 1,450 journals
- Updated daily

### Superior Academic Journals with Active Full Text:

## Discovery Takes Academic Research to the Next Level

EBSCO Discovery Service (EDS) takes academic research to the next level through the perfect combination of content and technology, taking into account all of the critical elements in the research process. EDS is the ideal platform for researchers of any level:

- Undergraduate Students performing simple searches
- Post-graduate researchers conducting a sophisticated search
- Library administrators looking to quickly and conveniently streamline resources

Through a single search box, EDS provides fast, streamlined access to all of the library's content, but within the context of a greater experience that pulls together intuitive features and functionality, high-end indexing and instant access to critical full text.
