World Politics Review®

A Daily Online Publication and Resource for Foreign Policy Professionals and Readers

This unique database is a daily online publication and resource for foreign policy professionals and readers with a serious interest in international politics and foreign affairs. Its original articles are written by a network of more than 400 contributors from around the world, including subject-matter experts from journalism, research organizations, academia, government and elsewhere.

Original Content Added Each Month

World Politics Review includes multiple areas of study, with thousands of articles in its archives and more than 75,000 words of original content produced each month. This robust and authoritative database covers topics of key relevance to foreign policy, international politics and foreign affairs.

Subjects Include:

- Aid and Development
- Crime
- Culture
- Defense and Military
- Domestic Politics
- Economics and Business
- Homeland Security
- Human Rights
- International Law
- Political Theory
- Public Diplomacy and Propaganda
- Terrorism
- U.S. Foreign Policy
- War and Conflict

"Advanced Search, with its elegantly laid-out tool set for crafting very precise search strategies, gives the user great control over the whole search process."
